What is Knowledge Taps

What is Knowledge Taps:

Knowledge Taps came from the traditional flash card concept. It has been reinvented as an interactive mobile content that visually helps you to memorize various study materials.

Please download “Name Flags” app from Apple App Store or Google Play Store. It is an independent app that has been created with the **Knowledge Taps** idea.

The screenshot shows the Knowledge Tap Maker application window. The main area displays a grid with chemical symbols: H, Li, Be, Na, Mg, K, CA. A red dashed box highlights the 'H' cell. On the right, the 'Knowledge Tap Maker' configuration panel is open, showing the 'Detect Box' option checked with a margin of 2. Appearance settings include 'Border Color' (Choose Color...), 'Border Width' (1), and 'Fill Color' (Choose Color...). The 'TTS Data' field is empty. A 'Set' button is at the bottom of the panel.

HINTS

Prefer to design that incorporates the box style. Use "Detect Box" option to easily create the knowledge tap box by clicking an empty space of box.

Use Appearance options to go with your design.
