New Features

Dual Document View

doc
xls
ppt
PDF
txt
jpg
png

PDF

Open a second read-only document (2) on the same screen. Documents can be MS office, Apple Pages, Numbers, Keynote, PDF, Image, and text files.
Good for showing instructions or references.
[More(…) – Document / Open 2nd Document]

User Defined Web Service & Passing Parameter

User can create a customized web service with a passing parameter (%@). It integrates with PDF view for a convenient access of your favorite website. Find a dictionary definition, translation, weather, stock, time, currency, and etc.

File List

❶ File List Workspace

❷ Cover Image View –
Displays the first page images
(sorted by Name, Date, Size)

❸ Sort – Sort folders and files by Name, Date and
Size; Ascending or Descending order

❹ Folder Area – Displays folders above the files;
Downloads folder is treated specially. All the
downloaded files are automatically stored in this
folder. You many re-arrange the files later.

❺ File Area – Simple tap on the list starts to open
the document. Long-click on file list brings up the
associated file list of Open In option.
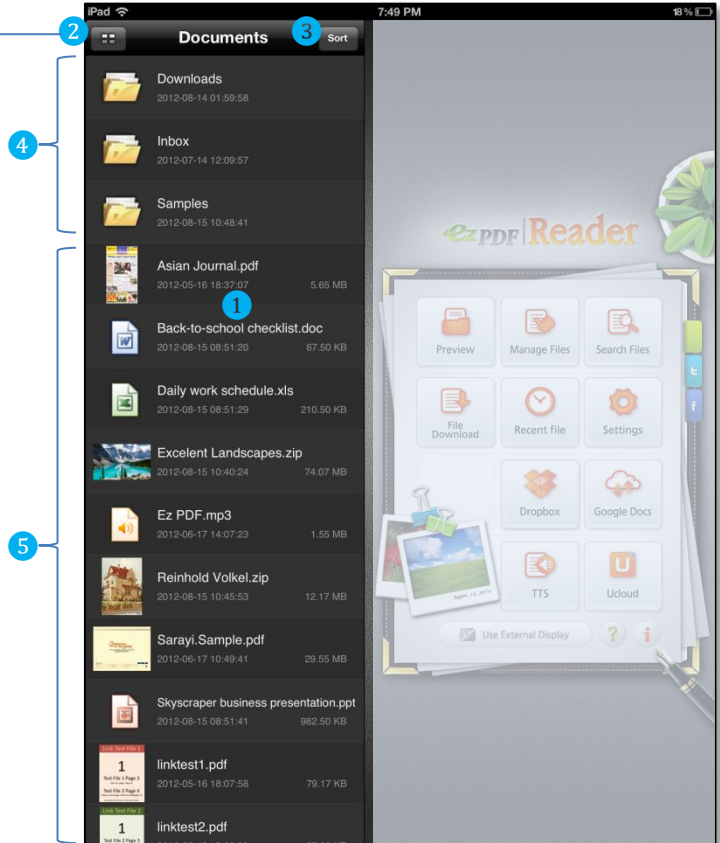

Main Menu

❶ Main Menu Workspace

❷ File Preview displays the very first page of document and document information.

❸ Manage Files – Create a blank PDF file, Create Folder, Copy, Move, Delete, and rename folders & files; Send email as attachment

❹ Search Files – File name search in the current folder

❺ File Download – WiFi connection to transfer file to iPad; Also downloads file with URL address or from Website. Downloaded files are automatically saved into Downloads folder.

❻ Recent File - Most recently viewed file list

❼ Settings – Global Settings for ezPDF Reader (More details on next page →)

❽ Dropbox – Dropbox integration to create folder, download and upload file(s); delete file(s)

❾ Google Drive – Google Drive integration to create folder, download and upload file(s); delete file(s)

❿ Text-to-Speech (TTS) – This is an **In-App Purchase** option to add TTS feature; English, Chinese, Japanese and Korean voices are available.

⓫ Ucloud - Ucloud integration to download and upload file(s)

⓬ For the first edition of iPad and iPad 2 only – Connect screen to external display

⓮ Information
Settings (Global)

View

Screen Fit Mode

Long and Wide Document Examples

1) Fit to Width

2) Fit to Height

3) Image Full

4) Paper Full

PDF Viewing Mode
1) Fast, but Less Featured Mode
   Faster rendering mode, but does not support JPEG200 and JBiG2 compressed PDF files
2) Slow, but More Featured Mode
   Slower rendering mode, but supports JPEG200 and JBiG2 compressed PDF files
3) Smart Viewing Mode
   Switch back and forth for fast and slow mode as it detects the JPEG200 and JBiG2 compressed PDF files

Reading Direction
1) Basic
   Follow the defined reading direction inside the document. If not defined, the default mode is Left to Right
2) Left to Right
3) Right to Left

Page Scrolling
1) Horizontal Scroll
   Scroll page sideway
2) Vertical Scroll
   Scroll page up and down

Creating cache file for Tiling (ON / OFF)
It speeds up when same page read again, but takes more flash memory space.

Settings (Global)

General

Confirm before link action (ON / OFF)
When it's on, it confirms the link actions, such as go to other page or URL to a website

Show link audio toolbar (ON / OFF)
Show audio controller when audio is playing

Show link media icon (ON / OFF)
Show embedded audio or video file when it is on

Show menu when opened (ON / OFF)
Show menu when opened

Hide menu when inactive (ON / OFF)
Hide menu when inactive

Delete cache files
More space, but may display slow on previously read document

Show annotation toolbar (ON / OFF)
Also able to turn on or off from PDF view

Smart Scroll Side Area
Touch response distance in pixel for side scroll

Smart Scroll Bottom Area
Touch response distance in pixel for top and bottom scroll

Context Menu

Web Service View Height

Web Service View splits the screen into two; Normal PDF view is at the bottom and the Web Service View is at the top. The default divider is at 370 pixel when in portrait mode. Lower of this height results in smaller screen area for web and higher number means a smaller area for the PDF.

Search Option
Search option from text selection in PDF
1) Being 2) Google 3) Yahoo

Translate Service URL
Enter an URL for your favorite translation site.
Dictionary Service URL
Enter an URL for your favorite dictionary site.
User Context Menu Name
User Web Service URL
Enter a web service name and its URL. You can automate this feature with a passing string (%@).

Settings (Global)

1	3 Random	4 Go To	5 Page	6 Slide	7 Zoom	8 Bookmarks	9 Search	10 Links	11 Outlines	12 Text	13 Thumb	14 Unlock	15 Print	16 TTS	17 ...	2

1 History Undo Page Navigation

2 History Redo Page Navigation

3 Random page selection in current PDF

4 Go to a specific page in current PDF

5 Page slide bar for page navigation

6 Slide : Auto Slide mode with a loop function; Set a time interval for each page turn. Works better when all the pages are rendered first.

7 Zoom : Able to set for zoom display

8 Bookmarks : Displays the bookmarked page and its description; Add or delete bookmarks on a specific page; Able to add description when adding a bookmark.

9 Search : Text search within the currently viewing PDF file; Able to select case-sensitivity and whole word only option; Words search option for Exact, Any and All; Displays the page number that meets the search results and search results are highlighted.

10 Links : Displays all the page and URL links in PDF file. When a link list is selected, then the page move the associated page.

11 Outlines : Similar to Table of Contents; Displays the outline information; When an outline list is selected, then the page move the associated page.

12 Text Reflow View – Extracts out the text information from PDF and displays in text only format; Pinch in or out for zooming; Page navigation and search option is available in this mode.

13 Thumbnail Image View

14 Unlock / Lock (Toggle) Screen rotation

15 Print : Print and Open In… options

16 Text-to-Speech Controller – Play, Stop, Move to next or previous block, and change audio speed. TTS feature requires an **In-App Purchase** to activate TTS engine and download a TTS voice.; English, Chinese, Japanese and Korean voices are available

17 More (…) – More Options (Please see next page for more details. →)

More (...)

Annotation

Show (or Hide) Annotation Toolbar
Toggle option to show or hide annotation toolbar on the screen while using a PDF file.

List of Annotations
Show a list of annotations by their page sequence. Able to go to the position of selected annotation, edit or delete the annotation.

Import Annotations
Bring in annotations from an XFDF file.

Export Annotations
Export annotations to an XFDF file.

Export Annotations as Text File
Export annotations to a text file for easier reading.

Flatten All Annotations
Flatten all annotations inside the currently opened PDF file. Annotations are no longer accessible after flatten.

Email Annotations as attachment
Send annotations via email as an attachment file.

Form

Clear Form Fields
Remove the data in form fields

Import Form Fields Data
Bring in form data from an XFDF file.

Export Form Fields Data
Save the form data. Select a location and filename, and save to an XFDF file.

Flatten Form Fields Data
Merge form data with the page to become page content.

Email Form Fields Data as attachment
Send form data via email as an attachment file.

Document

Crop Page
Adjust the margins of document box.

Insert Blank Page
Append a blank page. Usually used for extra annotation space.

Text Selection and Its Usages (Long-Click)

Long-Click on Text

Brings up the context menu.

by JESS DIAZ

1 Define 2 Copy 3 Search 4 Send... 5 Markup... 6 Translate 7 Dictionary

MANILA – The House of Representatives is open
to a "surgical" Cha-cha (Charter change) to amend

❶ Define

Built-in dictionary in iOS.

rep·re·sen·ta·tive | ˌrepriˈzentətiv|
adjective
1 typical of a class, group, or body of
opinion: *these courses are representative of
those taken by most Harvard undergraduates*
.
• containing typical examples of
many or all types: *a representative sample
of young people in the South* .
2 (of a legislative or deliberative
assembly) consisting of people chosen
to act and speak on behalf of a wider
group.
• (of a government or political system)
based on representation of the people
by such deputies: *free elections and
representative democracy* .

❷ Copy

Copy selected text to clipboard

❸ Search

Web search of
selected text.
(Options for Bing,
Google, Yahoo).
The web result
shows up with
PDF content.
(Ex: Yahoo search)
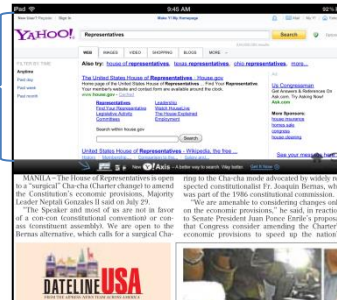

❹ Send…

Send selected text with SMS, Email, Twitter and
Facebook. Twitter and Facebook accounts must
be set up from the settings.

by JESS DIAZ

SMS   Mail   Twitter   Facebook

– The House of Representatives i
al" Cha-cha (Charter change) to

❺ Markup…

Text marking tools – Highlight, Underline, and
Strike-through

by JESS DIAZ

Highlight   Underline   StrikeOut

– The House of Representatives i
al" Cha-cha (Charter change) to
❻ Translate

Use your favorite Translate Web Service. Set the
appropriate URL from the settings. Use "%@" for
the passing parameter.

Text Selection and Its Usages (Long-Click)

❼ Dictionary

Use your favorite Dictionary Web Service. Set the appropriate URL from the settings. Use "%@" for the passing parameter.

For example:
Use "hello" for the dictionary definition from
http://dictionary.reference.com/
Get the URL result.
http://dictionary.reference.com/browse/hello?s=t
Replace "hello" with "%@" from the Dictionary Service URL in Settings.

You may use your choice of Dictionary service by customizing the URL.

User Defined Context Menu

You may add your own context menu to fill out User Context Menu Name and User Web Service URL from Settings.

For example:
Use "Stock" for the Context Menu Name.
Use the following URL.
http://finance.yahoo.com/q?s=%@   Passing Parameter

User Context Menu Name	Stock
User Service URL	http://finance.yahoo.com/q?s=%@

Web

PDF

PDF Menu

Annotation features can be added with Annotation Tool Bar. If the annotation tool bar is not shown on the screen, please toggle one this option from settings.

❶ Sticky-note adds a memo inside of an icon. There are different types of icon images to select from
❷ Freehand Draw
❸ Text Box draws a box and fill in with typed text; If the thickness is set to zero (0), the border would not shown.
❹ Adds an image from camera or gallery
❺ Continuous Highlight
❻ Continuous Strike-through
❼ Continuous Underline
❽ Adds an rectangle shape
❾ Adds an oval shape
❿ Adds a line
⓫ Adds an arrow

Annotations can have its own title, author's name, color value and thickness. You can also add description and comments (reply) for collaboration.

Annotations can be freely moved and resized.
